To
OECD Hiring Committee
Directorate for Financial and Enterprise Affairs,
Capital Markets and Financial Institutions Division

Sub: Application for Junior Economist – Capital Markets.

Dear Hiring Committee,

With great enthusiasm, I am writing to express my strong interest in the Junior Economist – Capital Markets position at the OECD. As an analytical and collaborative economist, I am confident that my quantitative background and problem-solving skills would allow me to contribute meaningfully to your team.

As reflected in my resume, I have built experience in applied economic research through my work at OECD and the Institute for International Economic Studies. I am eager to apply my research, data analysis, and interpersonal skills to support evidence-based work on capital markets and financial economics.

As a prospective employee, I can immediately bring the following strengths to your team:

- **Strong analytical skills:** As a Consultant, I analyzed datasets and reviewed academic literature for major projects in economics and policy analysis. I managed data using SQL and Excel, collected information through Python-based web scraping from diverse online sources, and synthesized quantitative evidence and qualitative research into concise summary reports.
- **Ability to work independently and collaboratively:** In my role as a Data Analyst at the Institute for International Economic Studies, I independently analyzed data from 15,000 Swedish establishments using advanced statistical methods. At the same time, I worked closely with research teams to ensure data accuracy and consistency through careful collection and cleaning processes. By developing efficient solutions to data management challenges, I contributed to more reliable analyses, stronger insights, and improved project outcomes.

While my resume provides an overview of my background, I would welcome the opportunity to discuss in greater detail how my experience and motivation can support your team's analytical work. I would be honored to contribute to the OECD's work on capital markets and financial economics.

Thank you for your time and consideration. I look forward to the possibility of speaking with you further about this opportunity.

Sincerely,

Jay Lee
