To
Hiring Committee,
Organisation for Economic Co-operation and
Development (OECD)

June 10, 2026

Sub: Application for Junior Data Analyst Position.

Dear Hiring Committee,

I am writing to express my strong interest in the Junior Data Analyst position at the OECD. With a background in economics and experience in data collection modernization, econometric and statistical analysis, and policy reporting, I am confident I can contribute to the OECD's evidence-based work.

As reflected in my resume, I have built experience in applied microeconomic research through my work at Queen's University, the Institute for International Economic Studies, and as a Consultant at the OECD. I am eager to apply my research, data analysis, and interpersonal skills to support the Agricultural Outlook and other policy-oriented outputs.

As a prospective employee, I can immediately bring the following strengths to your team:

- **Strong analytical skills:** As a Research Assistant, I analyzed datasets and reviewed academic literature for major projects in politics and education. I managed data using SQL and Excel, collected information through Python-based web scraping from diverse online sources, and synthesized both quantitative evidence and qualitative research into concise summary reports.
- **Ability to work independently and collaboratively:** In my role as a Data Analyst at the Institute for International Economic Studies, I independently analyzed data from 15,000 Swedish establishments using advanced statistical methods to strengthen research quality. As a Consultant at the OECD, I supported data collection modernization, validations, calculations, and cross-country comparability. By developing efficient solutions to data management challenges, I contributed to more reliable analyses, stronger insights, and improved project outcomes.

While my resume provides an overview of my background, I would welcome the opportunity to discuss in greater detail how my experience and motivation can support your team's research goals. I would be honored to contribute to the OECD's work on agricultural markets and policy analysis.

Thank you for your time and consideration. I look forward to the possibility of speaking with you further about this opportunity.

Sincerely,

Jay Lee
