Sub: Application for Clean Energy Transition Programme Officer – Middle East and North Africa.

Dear Hiring Committee,

I am writing to express my interest in the Clean Energy Transition Programme Officer – Middle East and North Africa position at the OECD. With a background in economics and experience at the OECD supporting data validation, analysis, and reporting, I would welcome the opportunity to contribute to programme delivery, analysis, and coordination.

As reflected in my resume, I have developed strong research and policy analysis skills and the ability to translate complex information into clear narratives and stakeholder-facing outputs. I am eager to apply this experience to support briefings, programme outputs, and collaboration across teams in an international setting.

As a prospective employee, I can immediately bring the following strengths to your team:

- **Strong analytical skills:** At the OECD, I supported data validation, analysis, and reporting, building experience in turning complex information into concise and useful outputs. I also bring a strong research background and an economics training that support careful policy analysis and programme work.
- **Ability to communicate and collaborate:** Through my work, I have learned to present analysis clearly and work effectively across multidisciplinary teams. This would help me contribute to briefings, coordination, and stakeholder-facing materials for the programme.

I would welcome the opportunity to discuss how my OECD experience, research background, and analytical skills can support the Clean Energy Transitions Programme. I am also keen to deepen my understanding of the energy policy context while contributing to the work of the team.

Thank you for your time and consideration. I look forward to the possibility of speaking with you further about this opportunity.

Sincerely,

Jay Lee
